**HEAL
COUNTRY!**

Arrows: Care for Country by Maggie Jean Double-Blake-Sidd

When creating Care for Country, I kept in mind that this means spiritually, physically, emotionally, socially and culturally...I chose to create a bright and vibrant artwork that included the different colours of the land but showed how they come together to form beautiful country and so these people feel hopeful for the future. He included communities, people, animals and both medicines spread over different landscapes of red dirt, green grass, bush, sand and coastal areas to tell the story of the many ways our country can and has healed us throughout our lives and journeys.
